

Scales Moor Project			Level 2 Survey		Features related to field sports	
Site ref.	Feature	Confidence level	NGR		Elev. (m OD)	Description
			Easting	Northing		
FS 1	shooting stand	high	372218	477272	382m	L-shaped, partially collapsed, dominantly rounded sandstone boulders on NE face with angular limestone slabs on SE face. Faces NNE. 2.5m x1.5m x 0.8m.
FS 2	shooting stand	high	372244	477226	382m	Linear, built on top of a clint edge to give extra height, mainly angular limestone slabs + some rounded sandstone cobbles. Sound condition. Faces NE. L 2.7m, Ht of wall 0.8m, Ht incl. grike 1.4m.
FS 3	shooting stand	high	372259	477187	385m	2 parallel walls, mainly angular limestone slabs + a few sandstone cobbles. Some loss of stone from SE end of SW-facing wall & from opposite end of NE-facing wall. Faces SW. L 2.8m, Ht 1.1m, W 1.1m.
FS 4	shooting stand	high	372266	477134	385m	Linear wall on edge of limestone pavement to give added height. Angular limestone slabs, crudely built. Degraded. Faces SW. L 2.6m Ht of wall 0.4m, Ht with clint 0.9m.
FS 5	shooting stand	high	372288	477135	385m	Single curving wall, crudely built, mainly angular limestone slabs, set on edge of clint. Poor condition, some tumble. Faces NNE. L 1.8m, Ht of wall 0.4m, Ht with clint 0.9m.
FS 6	shooting stand	high	372292	477110	383m	Low crude curving wall of angular limestone slabs on curving rim of solution hollow within limestone pavement. Sound condition. Faces N through to E. L 2.1m, Ht of wall 0.4m, Ht with clint 0.95m.
FS 7	shooting stand	high	372300	477095	383m	Slightly curved linear wall set on edge of limestone pavement. Solidly built, mainly of angular limestone slabs. Sound condition except at SE end. Faces ENE. L 2.6m, Ht of wall 0.6m, Ht with clint 1m.
FS 8	shooting stand	high	372346	477029	383m	Linear wall of large angular limestone slabs set on top edge of a natural bank. Solidly built. Degraded. Faces NE. L 2.4m, Ht of wall 0.5m, Ht with clint 0.9m.
FS 9	shooting stand	high	372381	476979	377m	Solidly built wall of angular limestone slabs, curving to conform to a natural outcrop. Sound condition. Faces NNE through to SSE. L 2.85m, Ht of wall 0.7m, Ht with outcrop 1m.
FS 10	shooting stand	high	372424	476930	376m	Solidly built limestone slab wall set on a small natural boulder outcrop. S end tumbled, N end mainly sound. Faces E. L 3.5m, Ht max 0.8m. L 2.5m , surviving Ht 0.75m.
FS 11	shooting stand	high	372447	476896	377m	Linear wall, mainly of angular limestone slabs set on a low natural outcrop, with a foundation-level tail wall, L-shaped, 2.5m SE-NW by 5.5m NE-SW. Much degraded. Faces NE.

Note: FS 1 to FS 11 are all within the easternmost of three broadly parallel lines of shooting butts. FS 13 to FS 15 lie within the central line. FS 16-20 lie within the western line.

FS 12	shooting hut	?	372310	476940	380m	A square, solidly-built structure of coursed limestone, lime-mortared with internal render visible on the S wall. Wall thickness 0.6m, doorway 1m wide. Window recess in W wall 0.6m thick by 0.95m wide by 0.75m high. Door in E wall. Monopitch roof (now gone) sloping down to S wall. Floor is not visible - turfed over. Building is sound. Int. 2.8m x 2.8m.
FS 13	shooting stand	high	372268	477050	384m	L-shaped, solidly built with angular limestone slabs, built on edge of limestone pavement. Mostly sound. Faces NNE through to ESE. L 1.9m + 0.9m, Ht of wall 0.7m, Ht with clint 1.4m.
FS14	shooting stand	high	372204	477168	384m	Crude curving wall of angular limestone slabs built around the lip of a natural solution hollow in the pavement. Very degraded. Faces N through to SE. L 2.9m, Ht 0.6m, Ht with pavement 1.1m.
FS 15	shooting stand	high	372127	477261	382m	U-shaped butt with two walls of angular limestone slabs built around the lip of a clint. Tumbled. Faces SW through S to N. L 2.9m, Ht of wall 0.8m, Ht with clint 1.4m, W at inner end 1m, W at entrance 0.25m.
FS 16	shooting stand	high	372195	477131	387m	L-shaped wall of large slabs of angular limestone, solidly built. Sound mostly. Faces NW through to S. L 1.15m in S-facing wall, L 2.1m in W-facing, wall 0.65m, Ht with clint 1.35m.
FS 17	shooting stand	high	372144	477215	387m	A 3-sided butt with tumbled walls, of angular limestone slabs. Faces SW. L 0.8m, Ht now 0.6m, W 1.3m.
FS18	shooting stand	high	372203	477102	384m	Collapsed butt of limestone slabs on a base of rounded sandstone boulders. Faces W. L c.2.3m
FS 19	shooting stand	high	372212	477089	389m	3-sided, much degraded/tumbled butt of angular limestone slabs & 2 large sandstone boulders. Faces from S through to NNE. L int 1.6m, Ht max 0.9m, W 1.2m.
FS 20	shooting stand	high	372235	477041	384m	3-sided butt of angular limestone slabs, much degraded. Faces S through to NW. L 0.7m + 1.7m + 1.1m, Ht max 0.8m.
FS 21	shooting stand	high	372710	477157	356m	A well-coursed butt made of large slabs of limestone, set on the edge of a low outcrop of limestone. L 4m, Ht int. 1.1m, Ht ext. incl. outcrop 1.5m, top W 0.5m - 1m
FS 22	shooting stand		372817	477591	348m	Crudely built of limestone pieces set on edge of low limestone outcrop. Tumbled/robbed at both ends. L 4m, Ht int. 0.8m, Ht ext 0.5m, top W 0.7m
